Olagunju Oluwabukola Sussanah

SUMMARY

I'm Olagunju Oluwabukola Sussanah, a Software Engineer with experience in building user interfaces for digital web products. I prioritize excellence, simplicity and speed with a goal to deliver high-quality work that exceeds expectations.

EXPERIENCE

Expansion Cyber Technologies, Nigeria – *Frontend Developer Intern*

August 2024– October 2025

At ECT I was responsible for implementing responsive landing pages, developing reusable UI components, and writing type-safe client-side code. I developed the landing page, among other projects ensuring a responsive and user-friendly design.

RedNotice, Egypt – *Frontend Developer*

November 2024 – December 2024

I built the landing page for a cybersecurity product at RedNotice, including features such as login/signup, pricing, testimonials, and a newsletter signup form. I collaborated with the backend developer to ensure seamless integration and functionality across the site.

InstamedRX, Remote – *Frontend Developer Volunteer*

August 2024– present

As a volunteer at InstaMediRx, I contributed to the development of an application designed to connect doctors and pharmacists with their clients. The app featured booking systems, online and physical consultation options, and

user-friendly interfaces for easy navigation, while providing an intuitive and reliable experience.
