CAREER OBJECTIVE

I'm a passionate frontend web developer with mid-level expertise of frontend development in building dynamic and responsive web applications that ensures easy user interactions and accessibility.

I'm dedicated to work and growth with high level of performance in problem solving through analytical thinking, teamwork and collaboration to enhance maximum productivity.

EDUCATION

- Obafemi Awolowo University, Nigeria.
2018-2024 B.Ed Educational Management
- She Code Africa Academy.
March – June 2024

EXPERIENCE

- Volunteered at Microsoft Student Learners Ambassadors where I walked participants through the basics of web development.
- Volunteered for the STEM-A-Girl campaign organized to get secondary school girls introduced to technology. I walked them through the basics of web development.
- Collaborated with a team to build a website as an evaluation for the She Code Africa Academy completion.
- Frontend developer intern at Expansion Cybertech where I had hands on experience of designing responsive and appealing user interfaces while working on the company's landing page alongside other projects.
